

Worksheet

Mix Ratio Chart

Skills: Numeracy, Document Use
Profiled: Landscaper
Other Applications: All

Using the charts given, find the answers to these questions:

1. What is the gas to oil ratio for the **leaf blower**?

2. When mixing fuel for the **chainsaw**, how much oil needs to be added to a 5 litre jug of gas?

3. Which piece of equipment has a mix ratio of **24:1**?

4. When blending fuel for the **tiller**, how much oil needs to be mixed with 4 litres of gas?

5. When using 8 ounces of oil, how much gas is needed for the **trimmer** mix?

6. What is the mix ratio for the **trimmer**?

7. When mixing **32:1**, how much oil is needed for 5 litres of gas?

8. For the **chainsaw**, how much gas needs to be added to 6½ fluid ounces of oil?

9. Why do you think these measurements are often given in both metric and imperial? (litres and millilitres vs. gallons & ounces)
